USER GUIDE (PART 1)

KidsLipi

KidsLipi User Guide

Namaste! This document provides detailed steps to sign up and activate a school subscription for parents and teachers. It has three main sections:

1) Download KidsLipi App
2) Register with KidsLipi
3) Activate school subscription.

NOTE: The school activation code is valid for only ONE device. You should activate your school subscription on your or your kids' primary device, which you will be using for learning purposes.

Sing up and activation video - https://youtu.be/FAGAz0ecGTI

NOTE: For two steps school activation process, click on the 'School Sign in' button on the main screen.

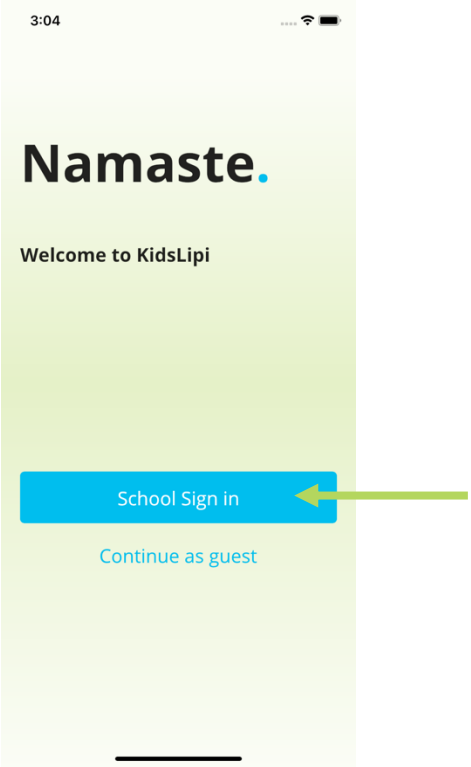
If you had installed KidsLipi app previously or accidentally continued as a guest, please follow the instructions provided at https://www.kidslipi.com/user-guide-part2.

Section 1: Download KidsLipi App

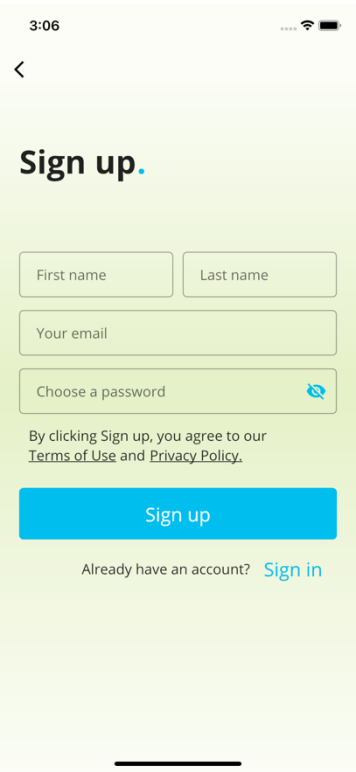
1. Download the app using the following links:
    a. Android Users: https://play.google.com/store/apps/details?id=com.kidslipi.alphabets
    b. iOS Users: https://itunes.apple.com/us/app/kidslipi/id1350075979?ls=1&mt=8

2. Open the app and

   Click on ‘School Sign in’ to continue.



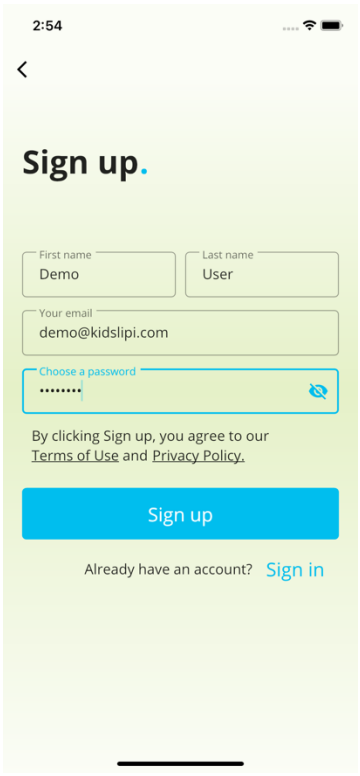
3. On the Signup Page, follow directions as provided in section 2.

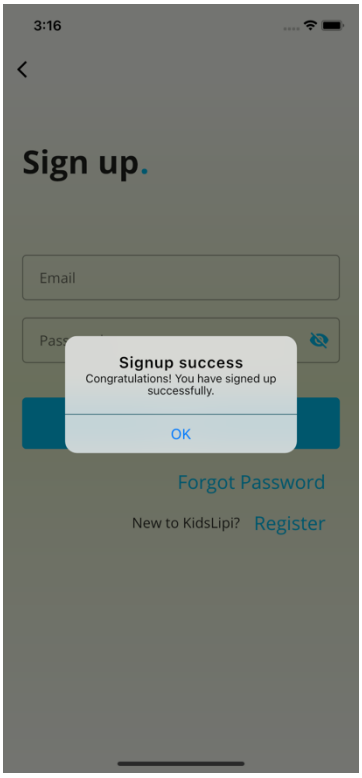


Section 2: Register with KidsLipi

The registration (for parents and teachers) is required to activate your school subscription. For registration, you MUST use the same email where you have received your school subscription activation code.

1. Enter your (a parent or a teacher) first name, last name, email, and secure password. You will then receive a signup success message.

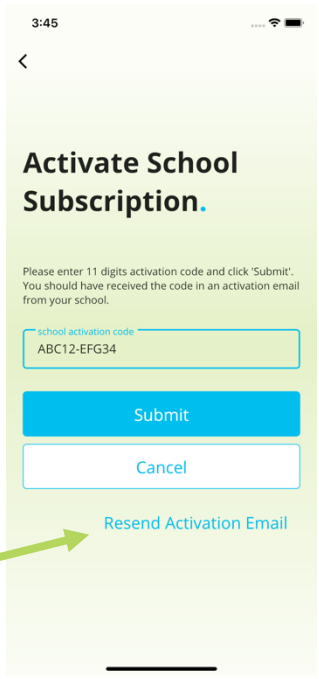


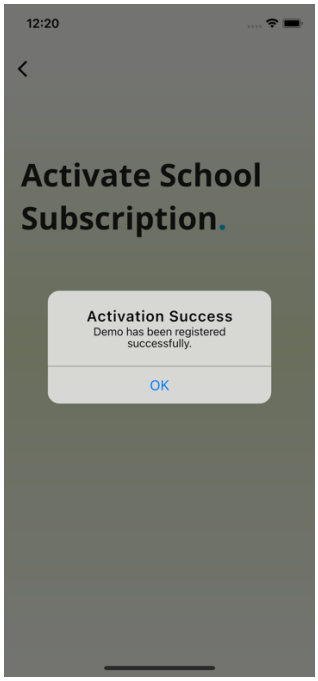


2. After successful registration, to activate your school subscription follow the steps provided in Section 3.

Section 3: Activate your school subscription

Please confirm that you are on the primary device where you or your kids' planning to learn regularly. The activation code is valid for only ONE device.



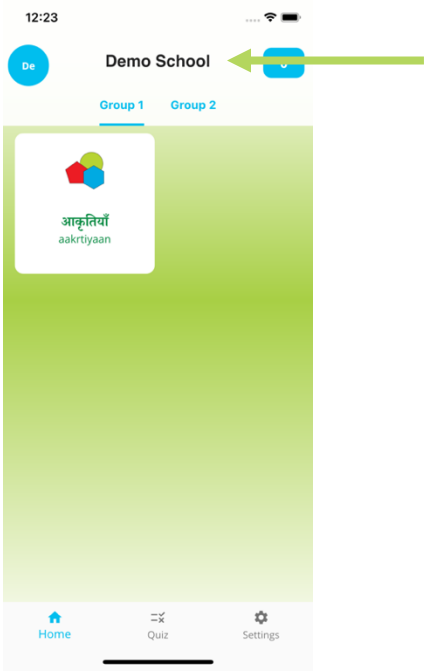


1. Open the email you received from your or your child's school and look for the activation code.
2. Enter the code and click submit on the 'School Activation Page'. Once activated, you'll receive an 'Activation Success' message.

NOTE: Click 'Resend Activation Email' to receive the activation code again, if needed.

3. Once you complete the previous step, you will see the assigned activities.

   You will see your respective school name in place of 'Demo School'



Congratulations, you are ready to use the app.

To ADD SECOND CHILD/USER you can follow the instruction provided under Section 2: Activate an additional school subscription in the second part of user guide at https://www.kidslipi.com/user-guide-part2

You may review the same document to learn more about options available on the settings page.
